

HAIKAL FIRDAUS

Jakarta, Indonesia | [\(+62\)87784451145](tel:+6287784451145) | haikalfirdaus498@gmail.com | [Linkedin](#) | [Portfolio](#)

SUMMARY

Information Systems and Technology student at Jakarta State University, comfortable working across the full stack with PHP/Laravel, Livewire, MySQL, and Python. During a recent IT internship I helped build and deploy an internal production-tracking web application, gaining practical experience from front-end interfaces to back-end and database work. Eager to keep learning and grow as a software engineer.

EXPERIENCES

PT Mitsubishi Krama Yudha Motors and Manufacturing

Information Technology Intern

May 2026 - August 2026

- Developed and maintained a full-stack production tracking web application (Laravel, Livewire, MySQL) used daily across manufacturing shifts to record production volume, downtime, and quality-defect data.
- Designed the application's relational database schema (30+ tables) and documented it with an ERD for the engineering team.
- Managed environment configuration, database migrations, and asset builds for deployment to internal infrastructure.

INFORMAL EDUCATION

Intensive Bootcamp - Microsoft Excel

Participants

October 2025

- Completed 10-hour intensive Excel training covering formulas, functions, pivot tables, and data validation
- Gained hands-on experience with data analysis tools including charts and tables
- Achieved intermediate-level competency certification from Karirnex PT Ebiz Karisma Internasional

Machine Learning Bootcamp Participant

Participants

May 2025 – October 2025

- Developed and deployed 3 end-to-end ML projects covering classification, forecasting, and anomaly detection.
- Gained hands-on experience applying deep learning models (LSTM, GRU) to real-world business problems.
- Collaborated in teams to solve real-world business problems.

PROJECT EXPERIENCES

MKM Productivity - Manufacturing Daily Report System

Full-Stack Web App · Laravel, Livewire, MySQL/PostgreSQL

August 2026

- Built and shipped a full-stack production tracking system for a real manufacturing company (PT Mitsubishi Krama Yudha Motors and Manufacturing), used daily to record production volume, downtime, and quality-defect data across multiple shifts.

- Designed and implemented a relational database schema (30+ tables) covering production, manpower planning, and quality-control workflows; authored full ERD documentation.
- Implemented interactive Livewire/Alpine.js interfaces for fast shop-floor data entry, KPI dashboards (process ratio, loss ratio) with Chart.js, and Excel report exports, secured with role-based access control (operator, supervisor, admin).

Revenue Forecasting System

Data Analysis & Time Series Project

September 2025

- Analyzed historical revenue data to identify trends, seasonality patterns, and business insights.
- Designed and compared deep learning models (LSTM, GRU) alongside SARIMAX for time series forecasting.
- Best model achieved 7.89% MAPE, documented methodologies and visualized findings for stakeholder communication.

EDUCATIONAL BACKGROUND

Jakarta State University

Sistem dan Teknologi Informasi

2023 - Present

GPA 3.83 / 4.00

Relevant Coursework: Web Programming, Software Engineering, Database Systems, Data Structures & Algorithms, Human-Computer Interaction

MAN 3 Jakarta

Science

2019 - 2022

ADDITIONAL

Languages: Indonesian (Native Proficiency); English (Working Proficiency)

Technical Skills:

- Programming: PHP (Laravel, Livewire), Python (pandas, numpy, matplotlib, seaborn, scikit-learn), SQL (MySQL), JavaScript (Alpine.js).
- Web Development: MVC architecture, RESTful APIs, Blade templating, database design & migrations, authentication & authorization
- DevOps & Tooling: Git, GitHub, Docker, Composer, npm/Vite, dependency & environment management
- Tools: Jupyter Notebook, Git, GitHub, Microsoft Excel (Intermediate), Machine Learning (scikit-learn, XGBoost).
- Soft Skills: Problem-solving, analytical thinking, eager to learn

Certifications & Professional Development:

- Memulai Pemrograman dengan Python – Dicoding Indonesia
- AI Career Bootcamp Batch 8 – Machine Learning Specialist
- Intensive Bootcamp 2 Weeks - Microsoft Excel
- Competency-Based Job Training - English
